## Other Info

### Skills

HTML5, CSS3, ES6, JQUERY, BOOTSTRAP, REACT, PHP, MySQL, Git.

### Languages

English

## About Me

I'm a frontend web developer with experience in designing and developing interfaces using frontend development tools.

I have basic experience in using a server-side language, PHP, and a database management system, MySQL.

I have experience working with various teams during various internships I participated in, using Github as a means for collaboration.

I'm a curious and fast learner with a problem-solving mind.

## Experience

9/2021 -  
2/2022

### Oluaka Institute Of Technology | Junior Frontend Developer

Worked as an intern in the institute.

4/2022 -  
5/2022

### Side Hustle | React Developer

It was an internship experience.  
learned the basics of React.js during this period.

## Education

## Interest

Web development, Technical writing
